

STEM Careers Week

31 October - 4 November 2022

Hybrid recruitment and promotional activity for businesses in the fields of Science, Technology, Engineering & Mathematics

STEM Careers Week will take place between 31st October and 4th November 2022.

This week-long series of events and activities aims to showcase a range of graduate employers, work experience and career opportunities for students and graduates at Durham University.

Alongside on-campus and virtual events and workshops, digital resources and employer information will be available designed to boost students' employability, confidence and sector knowledge.

For more information and support with recruitment from Durham University and to get involved in STEM Careers Week:
